Writing and Publishing Scientific Papers

Tenth Census of the United States, 1880: Newspapers, periodicals. Alaska ship building

This practical book offers effective and creative activities that help young students master the skills they need to grow as writers. Among the topics discussed, the book thoroughly explores the important beginning steps, such as: putting pencil to paper;identifying and printing letters of the alphabet; exploring sound-symbol matches. Basic Tools for Beginning Writers recognizes that story and image are good ways for beginning writers to develop language skills. With a focus on writing and reading activities that emerge from the four stages of the Morning Message to techniques for promoting printing, writing and reading in learning centers.
The American Rhetorical Construction of the Iranian Nuclear Threat

Gabriel Levey’s scientific communication course for students and scientists explores the intricacies involved in publishing primary scientific articles, and has been taught in more than twenty countries. Writing and Publishing Scientific Papers is the distillation of Levey’s lecture notes and experience gained over two decades. It is the coursebook many are waiting for. The book’s three main sections correspond with the three main stages of a paper’s journey from idea to print: planning, writing, and publishing. Within the book’s chapters, complex questions such as ‘How to write the introduction?’ or ‘How to submit a manuscript?’ are broken down into smaller, more manageable problems that are then discussed in a straightforward, conversational manner, providing an easy and enjoyable reading experience. Writing and Publishing Scientific Papers stands out from its field by targeting scientists whose first language is not English. While also touching on matters of style and grammar, the book’s main goal is to advise on first principles of communication. This book is an excellent resource for any student or scientist wishing to learn more about the scientific publishing process and scientific communication. It will be especially useful to those coming from outside the English-speaking world and looking for a comprehensive guide for publishing their work in English.

Letters and Miscellaneous Papers

This book constitutes the thoroughly refereed post-conference proceedings of the 19th International Conference on Financial Cryptography and Data Security, FC 2014, held in San Juan, Puerto Rico, in January 2015. The 23 revised full papers and 10 short papers were carefully selected and reviewed from 102 full papers submissions. The groups are ranked in the following topical sections: sidechannels; cryptography in the cloud; payment and fraud detection; authentication and access control; cryptographic primitives; mobile security; privacy and incentives; applications and attacks; authenticated data structures.

Big Book of $5.00 Crafts

Jason Jones analyzes the rhetorical construction of the Iranian nuclear threat during the Bush presidency, and US/Iran relations more generally.

Personal Productivity Secrets

This book constitutes the thoroughly refereed post-conference proceedings of the second edition of the Semantic Web Evaluation Challenge, SemWebEval 2015, co-located with the 12th European Semantic Web conference, held in Porto, Slovenia, in May/June 2015. This book includes the descriptions of all methods and tools that entered at SemWebEval 2015, together with a detailed description of the tasks, evaluation procedures and datasets. The contributions are grouped in the areas: open knowledge extraction challenge (OKEx 2015); semantic publishing challenge (SemPub 2015); schema-agnostic queries over large-schema databases challenge (SaQ 2013); concept-level sentiment analysis challenge (CSA 2015).

A Passion for Winning

The thoroughly revised and updated 2nd Edition of the book ‘Topic-wise Solved Paper SSC General Awareness’ consists of past solved papers of SSC CGL, 10+2 CHSL, Sub-Inspector, and Multi Tasking from 2010 to 2017. **The coverage of the paper has been kept RECENT (2010 to 2017) as they actually reflect the examination pattern of the SSC exams.** There are 83 Question papers from 2010 to 2017 which have been provided topic-wise along with detailed solutions. **Practicing these questions, aspirants will come to know the pattern and toughness of the questions asked in the examination. In the end, this book will make the aspirants competent enough to crack the uncertainty of success in the Examinations.** The strength of the book lies in the originality of its question papers and Errorless Solutions. The solution of each and every question is provided in detail (step-by-step) so as to provide 100% concept clarity to the students.

Basic Tools for Beginning Writers

This book constitutes the thoroughly refereed post-workshop proceedings of the 5th International Workshop on Camera-Based Document Analysis and Recognition, CBDAR 2013, held in Washington, DC, USA, in August 2013. The 14 revised full papers presented were carefully selected during two rounds of reviewing and improvement from numerous original submissions. Intended to give a snapshot of the state-of-the-art research in the field of camera based document analysis and recognition, the papers are organized in topical sections on text detection and recognition in scene images and camera-based systems.

SSC General Awareness Topic-wise LATEST 33 Solved Papers (2010-2016)

The Berghof Betrayal, a Winston Churchill 1930s Thriller

“Westland Herzdolfe has absolutely reliable information that the Nazis plan a fake attempt on Hitler’s life which is to be the signal for a general massacre. The sources of his information are the SA in Dortmund and a tapped telephone conversation between Hitler and Röhm.” The Diaries of Count Harry Kessler, February 1933 Winston Churchill receives startling news from a German aristocrat in early 1933 after Adolf Hitler is appointed Chancellor of Germany. The aristocrat has learned of a plot to stage a fake assassination attempt on the new German leader that the Nazis will use as a pretext to declare martial law and liquidate their political opponents. Unknown to Hitler, however, his enemies within the Nazi party—the Black Front—are conspiring with renegade elements of his own SS to turn the fake assassination attempt into a real one. Churchill tells the American newspaper titan William Randolph Hearst of the fake plot and, together, they persuade Mattie McGary, Hearst’s top European reporter and god-daughter, to investigate. Mattie readily agrees in large part because exposing the fake plot may help her finally shed the unfortunate reputation she has in Germany as “Hitler’s favorite foreign journalist”. Soon after she leaves for Germany, Mattie’s fiancé, the American lawyer and former MID agent Bourke Cockran, Jr., also travels to Germany to help his publisher client, Freedom House, acquire the rights to Rear Area Pig, an expose of Hitler’s less-than-heroic wartime service. Once in Germany, both Mattie and Cockran find themselves in peril at the hands of the SS loyal to Hitler who will stop at nothing to keep Cockran from acquiring the book and Mattie from learning the truth about the American Rhetorical Construction of the Iranian Nuclear Threat
